

MIDTERM EXAM

ECON301—ECONOMETRICS I

MARCH 28, 2022

Last Name:

First Name:

NU ID number:

Instructions: The exam has three problems, each worth XX points, for a total of 100 points. The duration of the exam is 3 hours. Read each item in each problem carefully; then decide which ones you want to attempt first. I suggest that you try to answer first the items which you feel most confident about and then move on to the ones in which you don't feel so confident. If you encounter a complicated numerical calculation do not waste too much time in it trying to reach a final numerical answer, you can leave it indicated and then return to it if you have time. Write your answers neatly and be organized; cross anything that you don't want me to consider. Please number each page you use. Make sure to fill this cover sheet with your name and ID and deliver it *on top of* your written submission at the end of the exam.

Problem 1	Problem 2	Problem 3	Total
